The best [used BMW dealer London](#) is not one that just sells car but one that can look after all of your motoring needs. A superb example of this is Big Motoring World in Kent. Not only do they stock around 500 used BMW, they have state of the art BMW MOT and servicing facilities. However, they do not share the expensive BMW main franchised dealer pricing menu, which is an obvious bonus. I take my 525d Touring there for servicing and replacement tyres and the bill is generally around £200 cheaper and they also supply courtesy cars to their service customers.
